President's Message

— *Tim Johnson*

Nature Center Update

There is a lot to tell you about the Nature Center this month.

Following my message in last month's Kestrel that suggested donating a portion of one's IRA Required Minimum Distribution to help us complete the design and construction of the Ankeny Hill Nature Center, we received a tremendous outpouring of pledges and donations. Many thanks to all of you who gave to this important project. We now have more than enough to build the Dave Marshall Outdoor Classroom on Peregrine Marsh and around a quarter of what we need to build the second phase of the Gehlar Hall. The extension to Gehlar Hall will provide an indoors Visitors' Area with an Exhibit Hall, a possible store, office space for staff and volunteers, a utility area and storage space. This second phase will complete the grand vision for the Nature Center.

Ongoing Nature Center projects include:

- Completing the water treatment system.
- Completing the classroom tables, which are being built with wood from the oak tree that was dying and needed to be cut down for safety reasons. A donor recognition wall will be built using wood from this same oak tree. So the tree lives on in this way.
- Completing the design tenets for the Dave Marshall Outdoor Classroom and determining exact construction costs. We anticipate construction of the Dave Marshall classroom (and part-time photo blind) will take place in Summer 2021.
- Completing the Fundraising Agreement between Salem Audubon and U.S. Fish and Wildlife Service, which will include details on a donor recognition strategy.

President's Message continued page 2

President's Message continued

- February 8th was the deadline for submission of bids to the U. S. Highway Administration for construction of a new road, parking space and trails for the Nature Center. Following this deadline, we will be working with the Highways Administration to select the winning bidder. We anticipate that road construction to begin this summer, and to be completed in early October, after which we can hold a grand opening.
- While this road work is being done, work will begin on executing the interpretative elements that are envisioned in the Interpretive Plan, developed by the consulting firm Alchemy of Design. One of the key interpretative elements of this plan is the Experience Zone, which includes both permanent and seasonal educational elements designed to provide hands-on experiences to Nature Center visitors of all ages. It will be situated near Gehlar Hall. If you'd like a copy of this exciting plan, please let me know.
- Work continues on developing operating procedures for the facilities, planning for the opening ceremonies for this fall, executing a plan for planting native plants around Gehlar Hall that was developed by Lee Slattum, installing bird safe window treatments, and reaching out to members and foundations to acquire the remaining funds needed to complete the Gehlar Hall extension.

That's not everything that is currently unfolding at the Nature Center, but I will stop there for now. These are exciting times for Salem Audubon. The realization of Mark Gehlar's dream of a Nature Center that will inspire and educate young and old alike about the wonders of the natural world is taking shape.

Yard, Garden and Home Show

This spring, Salem Audubon will have a booth at the Yard, Garden and Home Show (March 20 through March 22). It's one of our chapter's major public events of the year. Last year we had thousands of visitors to our booth. Please see the related article in this issue for information on how you can get involved. I will be there, and I hope you will, too. Thanks to Michael Babbitt and Mary Ritter for organizing our booth again this year.

Birder's Night – March 10, 2020 - 6:30 PM

The Carrier Room, First United Methodist Church, 600 State St., Salem

Texas: Let's go Birding!

— *Glen Lindeman*

Join us Tuesday, March 10 to learn new things about Birding in Texas. How about counting birds by county? Want to know which sites are the best for your interests? How about recommendations for birding festivals? When do they usually take place? Can you see migrating warblers in Texas? All this and more.

Glen Lindeman has been a member of Salem Audubon for over 30 years, and also is a member of the Portland, Corvallis, East Cascades, Tucson (AZ) and Houston (TX) Audubon Societies. He's served as Chairman of the SAS Field Trips Committee since 2005 and has helped organize and has led birding trips throughout Oregon, including the Oregon Coast, Malheur National Wildlife Refuge and Summer Lake. His presentations have included a "mini" Big Year, "My Big Year Take Two" and "A Taste of Australia".

When not traveling or leading birding trips, Glen splits his time between his new home in South Salem and his friend Jean's home in the Houston suburb of Richmond, Texas. Glen has birded extensively in that bird-rich state and will share his experiences, photos and tips on Texas birding with us.

Birder's Night is a monthly program presented by Salem Audubon Society on the second Tuesday of each month from September through May. A Conservation Learning Education and Resource (CLEAR) Grant from the Marion Soil and Water Conservation District supports Birder's Night. Meetings are free and open to the public. Salem Audubon always appreciates donations to support its conservation, education and stewardship programs. For more information, contact the Audubon office at (503) 588-7340.

Roseate Spoonbill

Oregon Birds: See, Learn, and Share – Hummingbirds of the U.S.

Saturday, March 14, 2020 from 10:00 AM to 12:00 Noon

Oregon Department of Fish and Wildlife, 4034 Fairview Industrial Drive SE, Salem

Hummingbirds are incredible birds. With their glittering colors, unparalleled flying ability and interesting behaviors, hummingbirds are one of the main attractions of people to birding. In this class, you will learn how to identify hummingbirds and basic aspects of their biology. Do you want to attract these wonderful birds to your yard? You will learn how to create your own backyard hummingbird garden.

Cost \$10 per person. Reservations are necessary to ensure your space for the workshop. Please register online at <https://forms.gle/P6Jt4R19mxWSq6qn7>. For more information or if you have any difficulty with registration, please email Mike Unger at salemaudubonsociety@gmail.com.

The 2020 Mid-Valley Yard, Garden and Home Show

Friday, March 20 through Sunday, March 22, 2020

Oregon State Fairgrounds, 2330 17th Street NE, Salem

Make the most of the land around your home, or help others learn to do so, to create an enjoyable outdoor living space with productive gardens and plantings that support and attract visiting wildlife. We hope to see you at the annual Mid-Valley Yard, Garden and Home Show. It opens Friday, March 20 at the Oregon State Fairgrounds and runs through Sunday, March 22.

Salem Audubon Society is again among the many organizations and businesses sponsoring booths at this informative event. The SAS booth will provide resources on how to make a bird-friendly yard with literature and nest boxes from SAS's talented wood shop volunteers.

To volunteer to help staff the SAS booth, contact show@salemaudubon.org or go to

https://docs.google.com/spreadsheets/d/1XmiuxOO9A0AY75xHF_G3yBs_CAE_EKhNRI5OXi0HHck/edit#gid=0.

The show is at the Oregon State Fairgrounds, 2330 17th St. NE. **Exhibit hours are 11:00 AM to 6:00 PM Friday, 9:00 AM to 6:00 PM Saturday and 10:00 AM to 5:00 PM Sunday.** Admission and parking are free. Don't miss it.

Audubon Reserve Work Parties Every Wednesday from 9:00 to 11:00 AM

Plant and nurture native trees and shrubs.
Attack invasives and help keep our Reserve looking great.
Maintain trails. Eliminate litter.
BYO work gloves; tools provided or bring your favorites.
FREE! No background check required! On-the-job training!
Possibilities for advancement!

Coffee and conversation at McDonalds after
Call Lee Slattum at (503) 364-9325 with any questions

Upcoming Field Trips

— compiled by Glen Lindeman

Salem Audubon field trips are open to the public, and we usually have a mixture of experienced and novice bird watchers. These trips are a great way to become more familiar with the birds of Oregon, and you will find some great new places to go birding and possibly meet some new friends. There is no fee for the trips, but we do encourage carpooling to try to reduce our impact on the environment, with riders helping to cover the cost of driving. If you have a suggestion for field trips or have any questions, contact Glen Lindeman at (503) 930-1492 or gdalindy@msn.com.

SAS-SHORTS are abbreviated versions of our popular field trips. These trips are in the local area, typically last one to one and a half hours, and cover no more than a mile of walking. They are primarily designed for new birders, although everyone is welcome. Due to their short duration, please arrive before the start time. The outings will begin at precisely the advertised start time. Refer to the outing descriptions below for specifics.

Many of our field trips meet at the **Airport Road Park and Ride** located on the east side of Airport Road, between Mission and State Streets, next to the State Motor Pool and just south of the bridge over Mill Creek. To reach the park and ride, follow Mission Street to Airport Road (the first stoplight east of 25th Street) and turn left. Follow Airport Road north one block to the park and ride. Note that there are no restrooms at this site.

Sunday, March 1 at 9:00 AM – Minto-Brown Island Park

(Upcoming – Monday, April 6 and Wednesday, May 6, both at 8:00 AM)

Leaders: Mike Unger (503) 930-8998, Fred Stephens (503) 378-1364 and Barbara Dolan (971) 772-4589

This large Salem City Park provides access to a variety of habitat year-round, attracting birds and other wildlife. The connection of the Peter Courtney Bridge from the city of Salem to the north Conservation basin of Minto-Brown Park gives additional opportunity for winter visitors to be viewed, from the bridge to the water and field ponds. Return of good rains have brought the river level up and saturated the fields and oxbow areas. From parking lot #3, a variety of birding loops begin. Leafless woodland trees have allowed good viewing of winter birds, cavities for woodland nesters, and remaining large nests.

Two highlights are occurring in the park as this is written in February. Ranger Mike Zieker has identified a pair of Bald Eagles building a nest in the park. Protection of the nest area from human disturbance is now in place, assuring the peace the birds require to raise a family. The protection will be done by closing part of a walk loop, and there will be a viewing station established, staffed by volunteers trained by the Ranger.

The second highlight for March is the Osprey nest platform, as we wait with anticipation for the Osprey pair to return and rebuild. These raptors winter in Venezuela, Chili, or Argentina, and return to meet again, mate, and raise a family.

Please stay away from closed areas and adhere to the permitted trails around these birds.

Restoration areas in the Park are becoming more mature, providing cover and food for birds and animals. Into March,

Anna's Hummingbirds, Brown Creepers, Bushtits, American Robins, Bewick's and Pacific Wrens, Spotted Towhees, nuthatches and chickadees are announcing spring with their song and behavior. Bewick's Wrens can be one of the earliest soliciting songsters, nesting in wet, but protected tree roots in February. Other birds are seeking cavities, and Anna's are using lichen and spider webs as nest material. Cavity openings in the numerous snags provide homes to birds such as small owls, American Kestrels, 5 woodpecker species and Wood Ducks. We have been successful at identifying Wood Ducks going to snag openings over water. Join us to enjoy these seasonal changes.

Meet at 9:00 AM at parking lot #3 (the last parking lot in the park). Dress for the weather and wear appropriate footwear for uneven trails; plan for considerable walking. Bring snacks and water to keep energized. We will plan to finish by Noon.

NOTE: Be aware that there have been several cars broken into in the parking lot in the past few months, so don't leave anything of value in your car while on the walk.

Directions: From River Road South, turn west at the signal at Minto Island Road and proceed to the last parking lot.

Tuesday, March 17, 9:00 AM – Ankeny National Wildlife Refuge

(Upcoming – Sunday, April 19 and Sunday, May 24, both at 8:00 AM)

Leaders: Mike Unger (503) 930-8998, Fred Stephens (503) 378-1364 and Barbara Dolan (971) 772-4589

With spring before us and leaves still off the trees, there is excellent viewing of waterfowl, woodpeckers, perching raptors such as Red-tailed Hawk pairs, Peregrine Falcons, Merlins and Bald Eagles continuing from winter. An adult Golden Eagle has

Field Trips continued page 5

Field Trips continued

been seen regularly at the Buena Vista roadside trees since January. We have had views of Tundra Swans since their arrival in mid-November, in the deeper water at Pintail and Eagle Marshes. However, they have mostly been sighted at Eagle Marsh when in the air and changing location. While Dusky and Cackling geese begin to depart for their breeding grounds farther north, Green Herons, American Bitterns, American Kestrels, Cooper's and sometimes Sharp-shinned Hawks, and Wilson's Snipe can be observed searching for habitat here to nest. The reedy marsh areas are excellent for Sora, Virginia Rail, and Wilson's Phalarope that use the refuge for nesting.

There is no access to interior berms and ponds on the refuge until April 1, when the gates will open.

Meet at the Pintail Marsh Parking at 9:00 AM. This will be the only portable restroom stop until the Nature Center off Ankeny Hill Road is completed. We will carpool to enjoy the refuge loop, driving to prominent pullouts. Wear footwear for walking uneven trails and bring snacks and water. We will plan to finish by Noon.

Directions: From Salem, take I-5 south to the Ankeny Hill Road exit (Exit 243), and turn right (west). At the Ankeny Hill Road/Wintel Road intersection go straight (south) on Wintel and continue about 3 miles to the Pintail Marsh parking lot. You will pass by the Rail Trail on your left, with a sign that sits low; continue and look on your left for the landmark sign "SEASONAL PHOTO BLIND." The unmarked parking lot is on your right. (If you get to the railroad crossing you just missed it.) Or, follow Liberty Road south to Ankeny Hill Road, turn left and follow Ankeny to Wintel Road., then turn right and follow the directions above.

Friday, May 8 - Sunday, May 10 – Birding Southern Oregon: Cascades, Siskiyou and Klamath Basin

Leader: Harry Fuller (971) 312-1735

We will focus on birds not usually found in Willamette Valley (mostly birds moving north due to climate change) and the montane species found above 4000' elevation. "California" species we should find include White-tailed Kite, Red-shouldered Hawk, California Towhee, Wrentit, Blue-gray Gnatcatcher, possible Great-tailed Grackle, and Tricolored Blackbird. Last spring there was a singing California Thrasher in the area. This is also the height of wildflower season at higher elevations.

Itinerary:

- Friday, May 8—Into the southern Cascades, up to 5500 feet. Targets: Great Gray Owl, Williamson's Sapsucker, White-headed Woodpecker, Green-tailed Towhee, Nashville and Hermit Warbler, Dipper, nesting Sandhill Cranes, Canada Jay, Cassin's Vireo, Dusky and Hammond's Flycatcher, Mountain Bluebird, Vesper Sparrow, Mountain

Chickadee, pygmy-owl. If the group chooses, we can lunch at Green Springs Inn and bird from the veranda.

- Saturday, May 9—Ashland and then into the Siskiyou up to 7000 feet elevation. Targets: Screech-Owl, Wrentit, California Towhee, Great-tailed Grackle, Townsend's Solitaire, Mountain Quail, Sooty and Ruffed Grouse, Lazuli Bunting, White-tailed Kite, Red-shouldered Hawk, possible Cassin's Finches.
- Sunday, May 10—A long day afield as we head across the Cascades to Klamath Basin, elevation 4000 feet plus. Targets: White Pelicans, more cranes, dancing grebes (Western and Clark's), Redheads, Swainson's and Ferruginous Hawks, Bald and Golden Eagles, White-faced Ibis, nesting Willet and Long-billed Curlew, Tricolored Blackbird, Yellow-headed Blackbird, Pygmy Nuthatch, possible Blue-winged Teal, Prairie Falcon, and Eared Grebe in breeding plumage.

Birders should arrive in Ashland by Thursday evening, May 7.

We will finish with dinner on May 10. We will be based in Ashland, which is a tourist center with a wide spectrum of places to stay from an elder hostel through a price range of motels to hotels and high-end B&Bs. We will carpool for our daily field trips. If participants want to attend an evening play it is best on either the 7th or the 9th. This trip should be before the start of mosquito season.

NOTE: This trip is different than most of our other trips, in that the group will be meeting in Ashland rather than carpooling from Salem. As of this writing, the trip is full. Call Tim Johnson at (503) 507-8552 for more information or to add your name to the wait list.

Saturday, May 30 - Wednesday, June 3 – Malheur National Wildlife Refuge, Burns

Leader: Glen Lindeman (503) 930-1492

This refuge is one of the best birding destinations in the country. We will spend one day traveling to the refuge, one day exploring the refuge, one day in the Fields area south of Frenchglen, one day exploring the forest north of Burns, and one day traveling back to Salem. Lodging and most meals will be at the Malheur Field Station.

NOTE: As of this writing, the trip is full. Call Glen for more information or to add your name to the wait list.

Bald Eagle

Field Trips continued page 6

Field Trips continued

Friday, July 10 - Monday, July 13 – Summer Lake Wildlife Management Area

Leader: Glen Lindeman (503) 930-1492

[Summer Lake WMA](#) is a great birding spot in summer, with nesting waterfowl, sandhill cranes and shorebirds. Some of the targets are Common Poorwill, Yellow Rail, Black, Forster's and Caspian Tern, and Snowy Plover. We will spend one day traveling to Summer Lake, with stops at places like Salt Creek Falls and Davis Lake, one day exploring the Summer Lake area, one day in the Lakeville area and one day traveling back to Salem. Lodging and most meals will be at The Lodge at Summer Lake. Call Glen for more information or to sign up.

SAS SHORTS

Wednesday, March 25, from 9:00-10:30 AM – Cascades Gateway Park

(Upcoming – Friday, May 22 at 9:00 AM)

Leader: Fred Stephens (503) 378-1364

We will walk the approximately 1-mile trail around Walter Wirth Lake, looking for waterfowl, raptors, woodpeckers and songbirds.

Location: 2100 Turner Rd SE, near Walmart, Lowe's and the Salem airport.

Wednesday, April 22, 5:30 PM – Fairview Wetlands

Leader: Mike Unger (503) 930-8998

The Fairview Wetlands is a natural preserve located in the Fairview Industrial District. It features a walking trail, information signs, and good opportunities to see waterfowl, songbirds, woodpeckers, raptors, and even an occasional Virginia Rail.

Location: The Fairview Wetlands is across the street from the Oregon Department of Fish and Wildlife (ODFW) Headquarters at 4034 Fairview Industrial Drive SE (south of Madrona Avenue). Meet in the ODFW parking lot 5-10 minutes before 5:30 PM.

2020 Bird Identification Workshops

In 2020, Salem Audubon Society (SAS) will be offering six workshops on identifying local birds and using eBird. Two of the six workshops will be on new topics while the most popular workshops on Raptor ID and Hummingbirds will be repeated. The workshops are held on Saturdays from 10:00 AM to 12:00 Noon. The cost of each workshop is \$10.00 per person with all proceeds going to SAS to support conservation and other related activities. Mike Unger is the instructor for the workshops. Check future Kestrels for further information on each workshop

April 18 – eBird and Birding Resources (see page 7)	July 25 – Owls of the Pacific Northwest
May 2 – Land Birds (Woodpeckers, etc.)	October 3 – Sparrows Workshop

Beginning Birding Class – Saturday, April 4, 2020 from 9:00 to 11:30 AM

Oregon Department of Fish and Wildlife, 4034 Fairview Industrial Drive SE, Salem

Join Maureen and Nick to gain insight into the mysterious lives of our feathered neighbors. Kindle your curiosity in learning more about birds. In addition to learning how to identify common local birds, we will teach you a bit about bird migration, communication, and feeding habits.

Designed for beginners and those with some experience but who want to learn more.

We will lead an optional bird walk right after class at the Fairview Wetland Scenic Trail across the street from the classroom for those who want to join us! Binoculars, snacks, and water recommended, but we will have extra optics to borrow if needed.

Cost: \$10 per person. Reservations are necessary to ensure space for the workshop.

Please register online at <https://forms.gle/RSLAmFkCyEHLR8q6>. Please email Maureen Leong-Kee at mleongkee@yahoo.com if you have any questions.

www.salemaudubon.org

Oregon Birds: See, Learn, and Share – eBird and Birding Resources

Saturday, April 18, 2020 from 10:00 AM to 12:00 Noon

Oregon Department of Fish and Wildlife, 4034 Fairview Industrial Drive SE, Salem

Get up to speed on how the largest biological citizen-science program in the world can help you with your birding. Providing a powerful tool for bird enthusiasts everywhere, eBird helps you find more birds and keep track of your sightings. Birder, bird watcher, or bird lover, it doesn't matter - this workshop is for you. Whether you watch birds at your feeder or on the way to work, or travel miles for that one bird you can't wait to see, eBird can help.

This workshop will help you gain knowledge of eBird's capability, develop comfort with the app to enhance accurate reporting and help you submit complete checklists. We will also cover other resources like the Merlin Bird ID app and other birding apps.

Note: Please download the eBird and Merlin Bird ID apps before the workshop. Also sign up for eBird at <https://ebird.org/home>.

Cost \$10 per person. Reservations are necessary to ensure your space for the workshop. Please register online at <https://forms.gle/JUuj79BTWtcQwCiKA>. For more information or if you have any difficulty with registration, please email Mike Unger at salemaudubonsociety@gmail.com.

The Friends of the Willamette Valley National Wildlife Refuge Complex invite you to the following March event:

Putting a Face on the Refuge – A Wildlife Photography Workshop

Description: This workshop will include everything from composure, camera abilities, basic functions, and ways to make the experience fun, along with some field anecdotes from the presenter. Prints will be provided for the group to view and consider.

Date: Sunday, March 1, 2020

Time: 1:00 to 3:00 PM

Location: William L. Finley NWR Refuge Office & Nature Store

Presenter: *Mike Larsen* worked at a photo lab in aerial mapping photography for 38 years. The aerial photos in the Refuge HQ were produced by that lab and likely printed by Mike. His photos can be found on the current Finley NWR website and Facebook pages. Taking photos at the Refuges, and learning along the way, has been a hobby of his for over 20 years.

Please [RSVP](#) and find maps of Finley NWR at friendswvnrwc.org/events-volunteer.
